

BUSCH GARDENS WILLIAMSBURG ACCESSIBILITY GUIDE

The Busch Gardens Williamsburg Accessibility Guide provides an overview of services and facilities available for guests with disabilities at Busch Gardens Williamsburg. We are committed to providing all guests with a safe and enjoyable environment.

If you have any additional questions after reviewing this Accessibility Guide, please do not hesitate to contact us. You can reach us by emailing BGW-AccessibilityServices@BuschGardens.com or by calling (757) 229-4386. Alternatively, you may also visit the Welcome Center, conveniently located just inside Busch Gardens Williamsburg entrance on the day of your visit.

The Accessibility is organized into five (5) parts, as follows:

- Part 1 - General Park Information
- Part 2 - Disability Services Available
- Part 3 - General Ride Access Information
- Part 4 - Individual Ride Access Information
- Part 5 - Attraction and Presentation Information

PART 1: GENERAL PARK INFORMATION

PARKING

Accessible parking spaces are available in the France parking lot near the park entrance, with many of those spaces accessible to vans.

WELCOME CENTER

The Welcome Center is conveniently located just inside the Park Entrance. Please feel free to visit the Welcome Center on the day of your visit if you have any questions regarding the services available. You will also need to visit the Welcome Center to enroll in Busch Gardens Williamsburg Ride Accessibility Program (RAP).

WHEELCHAIRS AND ELECTRIC CONVENIENCE VEHICLES (ECV'S)

Guests may utilize their own wheelchairs or Electric Convenience Vehicles (ECV's). Guests are welcome join any ticketing or turnstile line to purchase tickets and enter the park.

Wheelchairs and ECV's are also available for rental, based on availability, at the Stroller Rental at the main gate area prior to entering the park.

Reservations for Wheelchairs and Electric Convenience Vehicles (ECV's) can be made online at buschgardens.com

SEGWAYS

Two-wheeled, self-balancing electric vehicles, such as Segways, are not permitted at Busch Gardens Williamsburg. We are pleased to offer alternative forms of personal transportation, including Electric Convenience Vehicles (ECV's) and standard wheelchairs.

ROLLATOR WALKERS

Guests are permitted to use their own rollator walkers; however, they may not be used as a substitute for a wheelchair or Electric Convenience Vehicle (ECV). Please note that guests are not allowed to be pushed while seated in a rollator walker. Rollator Walkers are not available for rental.

FIRST AID

First Aid facility is located near the France section of the park and is staffed by Registered Nurses or Emergency Medical Technicians. Please be aware that any Ambassador throughout the park can call for assistance on your behalf.

ACCESSIBLE RESTROOMS

All restrooms in the park are wheelchair accessible and are marked with a wheelchair symbol. Additionally, Busch Gardens Williamsburg has Family or Companion restrooms available in the following locations:

- Main Gate Area next to Stroller Rental
- Clydesdale Stables
- France Restrooms
- New France Restrooms
- Germany Restrooms
- Festhaus near Men's Restroom
- Italy Restrooms

GIFT SHOPS

All gift shops are wheelchair accessible. Please ask an Ambassador if you need any assistance.

Busch Gardens Williamsburg also offers package-pickup assistance at all gift shops. This service provides guests the opportunity to shop throughout the park and pick up their purchases at the Stroller Rental building near the main gate area past the park exit.

RESTAURANTS

Most dining venues at Busch Gardens Williamsburg offers cafeteria-style service.

You may also visit [buschgardens.com](https://www.buschgardens.com) for more information on Busch Gardens Williamsburg Allergy Friendly program prior to your visit.

FOOD POLICY

No outside food, beverages, or coolers are allowed to be brought into Busch Gardens Williamsburg, except for bottled water or refillable water bottles. Exceptions may be made for guests with special dietary needs, including food allergies and baby food/formula. Guest should contact BGW-AccessibilityServices@BuschGardens.com prior to their visit to request accommodations.

PART 2: DISABILITY SERVICES

SERVICE ANIMALS

Service Animals are welcome at Busch Gardens Williamsburg. Service Animals are limited to dogs and miniature horses only that have been individually trained to do work or perform tasks for the benefit of an individual with a disability.

Service Animals must always remain on a leash or harness and under the control of its handler. If at any time your service animal's behavior is out of control, you will be asked to remove your service animal from the premises.

Service Animals must be housebroken. Relief areas are marked on the park map.

Service Animals are permitted in all guest areas; however, please note whether a Service Animal is permitted in a behind the scenes animal interaction will be referred to the Zoological Staff.

Service Animals are discouraged from riding rides; however, at Busch Gardens Williamsburg Service Animals are permitted on:

- Bert & Ernie's Loch Adventure
- Der Autobahn
- Busch Gardens Railroad
- Kinder Karussel (Bench)
- The Land of Dragons® Rides
- Little Balloons
- Oscar's Whirly Worms
- Roto Baron
- Rhine River Cruise
- Skyride

Emotional Support Animals are not permitted at Busch Gardens Williamsburg.

HEARING DISABILITIES

Busch Gardens Williamsburg provides complimentary Qualified American Sign Language (ASL) interpreters upon request. To request an ASL Interpreter, please email BGW-AccessibilityServices@BuschGardens.com or call 757-229-4386. We kindly ask that you request this service at least 14 days prior to your visit. You should receive a response to your e-mail within 7 days. However, if you have not received a response within 7 days, please don't hesitate to email or call us again.

Additionally, Busch Gardens Williamsburg provides scripts available for select presentations. Please visit the Welcome Center to request a copy of available scripts.

VISION DISABILITIES

Guests who are blind or have limited/low vision must have someone (either a companion or Ambassador) explain the ride and read the ride instructions prior to boarding.

FOOD ALLERGEN INFORMATION

Most dining venues at Busch Gardens Williamsburg offer cafeteria-style service with allergy-friendly options available throughout the park.

Feel free to visit any dining venue to receive an Allergen Card with more details on our Allergy-Friendly program and culinary options that may meet your dietary needs.

While none of our restaurants are allergen-free, our team will take the utmost care to ensure that your meal is free from cross-contact. Upon arriving at your chosen food venue, please proceed directly to a cashier and request to speak with a supervisor to explain your allergen concerns in detail. The supervisor can answer your questions and take your food order, to ensure your meal is prepared without any cross-contact.

RIDE ACCESSIBILITY PROGRAM

At Busch Gardens Williamsburg, we have implemented programs to assist guests with disabilities. Our Ride Accessibility Program (RAP) aligns the individual abilities of our guests to the requirements of each ride, allowing guests to enjoy the park while keeping in mind the safety requirements of our rides and attractions. The RAP is based on the manufacturer's requirements for each ride and evaluates the physical and mental attributes required for a guest to safely ride an attraction.

It is the policy of Busch Gardens Williamsburg that all guests can ride rides and enjoy attractions as long as they meet all requirements and such that it does not present a likely hazard to the guests or others.

Guests should visit the Welcome Center, located just inside the park's entrance, to enroll in the RAP. Guests will receive a list of the rides and attractions they can ride.

Following enrollment in the RAP, guests will be granted Special Access to our attractions. Special Access is designed to allow our guests to enjoy select rides and attractions without waiting in line if the guest is not able to do so because of his or her disability. It is available only for the listed rides and excludes shows, special events, parades, meet and greet priority access, gift shop check-out, or restaurant lines. Guests enrolled in the RAP will be placed in a Virtual Queue, allowing them to enjoy the park

until their estimated boarding time at the specific attraction.

The following procedures will assist you in utilizing our Ride Accessibility Program throughout the park:

1. Once enrolled in the RAP, review your RAP sheet, and proceed to the entrance of a listed ride to request a boarding time. If the entrance is not staffed, you may proceed to the ride exit to request a boarding time. Boarding times are based on the current estimated wait time.
2. For smaller attractions that are listed on your RAP sheet, proceed to the ride exit/entrance marked with a disabled sign and inform the Ambassador of your desire to ride. You may be asked to wait 1-2 ride cycles if there is an estimated 10+ minute wait.
3. The guest enrolled in the RAP must ride for their party to board through the special access entrance. A maximum of 3 additional guests may accompany the guest needing special access. Additional guests must use the ride entrance.

Note: Guests may only have one active wait time at a time.

ADDITIONAL REQUESTS:

Should a guest with disabilities require further information regarding additional auxiliary aides, they may contact BGW-AccessibilityServices@BuschGardens.com or call (757) 229-4386.

PART 3: GENERAL RIDE ACCESS INFORMATION

GENERAL RIDE RESTRICTIONS

Rides create forces and speeds that may not be acceptable or tolerable to some riders and may cause injury to riders with known or unknown pre-existing conditions.

Many theme park rides incorporate safety systems designed by manufacturers to accommodate individuals of average physical stature and body proportion. These systems may impose restrictions on certain rider's ability to safely experience the ride.

As a rule, only ride if you are in good health. Do not ride if you know or suspect you may be pregnant, have abnormal blood pressure, heart, neck, or back problems, are prone to motion sickness, have recently undergone surgery, or have any other condition that could be affected by the ride's features.

For all rides, guests must be able to:

- Maintain the proper riding position throughout the ride, by bracing themselves upright, keeping their head upright, and their back against the seatback.
- Properly use the ride device or restraint, keeping their hands, arms, legs, and feet down and inside the ride device at all times.
- Hold on tight to the assist bar or handles at all times.
- Demonstrate willingness and ability to comply with and understand verbal and written rider requirements and safety procedures.

HEIGHT REQUIREMENTS

Height requirements are posted at each ride. A height check station is also available at the front of the park. All guests, including those using wheelchairs, must meet the height requirement to ride.

RIDERS OF LARGER SIZE

To ride, all seatbelts, lap bars, and shoulder harnesses must be properly fastened and positioned closed to the body. Due to rider restraint system requirements, riders of larger size may not be accommodated on:

- Alpengeist®
- Apollo's Chariot®
- Finnegan's Flyer®
- DarKoaster™
- Griffon®
- InvadR®
- Pantheon™
- Tempesto®

- Verbolten®

For your convenience, test seats are located at entrance of the rides. We recommend using these test seats before entering the queue line.

CASTS, BRACES, AND WALKING BOOTS

Guests wearing casts, braces, or walking boots may be restricted from riding certain rides and should refer to Part 4, Individual Ride Information, of this Accessibility Guide for more information.

In most cases, guests with walking boots and braces can ride if the boot or brace fits comfortably into the ride unit and meets the proper ride requirements.

PROSTHETIC DEVICES AND AMPUTATIONS

Guests with any type of prosthesis may be restricted from riding certain rides. If permitted, riders must ensure that the prosthesis is properly secured before riding and should refer to Part 4, Individual Ride Information, of this Accessibility Guide for more information.

RIDE TRANSFERS

Ambassadors can offer assistance steadying a guest transferring to or from a wheelchair. Ambassadors may not lift or assist in lifting anyone using a wheelchair. All guests must be able to board a ride themselves or with the help from a member of their party.

RIDE ESCORTS

Ride escorts may be required due to temporary interruptions in operation. If a ride escort is required, guests may need to negotiate stairs from the highest point of the ride and down steeply inclined catwalks or steps.

To expedite ride escort process, guests requiring assistance during the ride escort may be escorted last. Only one mobility-impaired guest may ride the attraction at one time unless they are in the same party. Please inquire about specific procedures prior to boarding a particular attraction.

BEFORE EXPERIENCING A RIDE:

- Note all safety warnings, both verbal and written, for each ride.

- Wait for all rides to come to a complete stop before attempting to board.
- Use caution when boarding, watching your head and step.
- Obey all instructions given by operators.
- Face forward and remain seated in the proper riding position.
- Hold on tight until the ride comes to a complete stop.
- Keep arms, hands, legs, and feet inside the ride at all times.
- Finish all food and beverages before riding.

OXYGEN TANKS

Due to the dynamics and specific characteristics of the rides, oxygen tanks are not permitted on any ride except for the Busch Gardens Railroad, Carousel (Bench Only), Rhine River Cruise, and Skyride.

Oxygen Concentrators may be permitted on some rides if they can be secured and meet the loose article requirements for a specific ride.

Oxygen tanks are permitted inside the park and may be brought into merchandise shops, restaurants, and other enclosed facilities.

RIDE DEFINITIONS

Supervising Companion: Someone who meets all physical and mental requirement to ride the ride, is 14 years of age or older and demonstrates maturity equivalent to that of someone aged 14 or older.

Accompanied By: When a guest requires accompaniment, the accompanying individual must meet all ride requirements and assist the guest accordingly. This assistance includes aiding the guest in boarding and exiting, as well as assisting the guest down stairs, catwalks, or ladders if a ride escort is necessary. Depending on the ride, the accompanying individual may also need to help the guest maintain postural control while riding.

Hand-held Infant: A hand-held infant is a child who is unable to walk to the ride unit independently or maintain independent seated postural control.

Functioning Extremity: A functioning extremity is a limb over which a person has control. A prosthetic device is considered a functioning extremity.

RIDERSHIP CRITERIA

As described in Part 2 of this Accessibility Guide, Busch Gardens Williamsburg's Ride Accessibility Program (RAP) aligns the individual abilities of our guests to the requirements of each ride, allowing guests to enjoy the park while keeping in mind the safety requirements of our rides and attractions. The RAP is based on the manufacturer's requirements for each ride and evaluates the physical and mental attributes required for a guest to safely ride an attraction. Some of those may include the following:

Ability to maintain the proper riding position throughout the ride. The guest must have the body and spinal control to maintain the proper riding position throughout the ride without the aid of other people or devices and be able to maintain the proper riding position even during bumping or other characteristic movements of the ride.

Weight distribution to allow the restraint device to function as designed. The weight distribution of the guest's body must not interfere with any of the ride or attraction's safety and restraint devices as they were designed.

Control of upper torso – including head and neck. The guest must have sufficient muscle control to support their head, neck, and upper torso in the proper position during the ride or attractions designed dynamic motions.

Ability to hold on with one functioning hand. A functioning hand is an upper extremity or prosthesis with fingers that have the ability to grasp the restraint device and exhibits good grip control; the ability to brace and is strong enough to maintain the proper riding position throughout the duration of the ride.

Ability to hold on with two functioning hands. Ability to hold on with two functioning hands as described above.

Ability to hold on with one functioning arm. A functioning arm is an upper extremity or prosthesis that has the ability to arm-grip the restraint device by wrapping the arm around the restraint device and is strong enough to allow the guest to maintain the proper riding position throughout the duration of the ride.

Ability to hold on with two functioning arms. Ability to hold on with two functioning arms as described above.

Ability to brace self with one functioning leg. Guest must have one functioning leg, natural or prosthetic, for bracing their body during the course of the ride or attraction.

Ability to brace self with two functioning legs. Guest must have two functioning legs, natural or prosthetic, to be used for bracing their body during the course of the ride or attraction and maintaining balance when entering and exiting a ride or

attraction.

Minimum of two functioning extremities. Guest must have a minimum of two functioning extremities, natural or prosthetic (two arms, two legs, or one arm and one leg), to brace themselves during the ride and assist in entering and exiting the ride or attraction.

Minimum of three functioning extremities. Guest must have a minimum of three functioning extremities, natural or prosthetic (two legs and an arm or two arms and a leg) to allow the guest to brace in a tripod manner during the ride.

Ability to hold on or brace: Ability to use one's arms to maintain a grasp on an assist bar and support one's body during normal and emergency procedures on a ride and to use one's legs to brace to maintain a seated position during the forces of the ride.

Ability to enter and exit the ride without endangering self or others. Guest must be able to enter and exit the ride without jeopardizing themselves or others and to assist with their own evacuation, if necessary. This may include entering through an exit or having someone aid him or her in boarding. If a guest has to be lifted in and out of a ride unit, they must be accompanied by a supervising companion who is accustomed to doing this. For the safety of ride or attraction operators and the guest, our operators are instructed not to perform this function, other than in children's ride areas.

Appropriate Observed Conduct. Guest must demonstrate appropriate observed conduct by indicating a willingness and ability to understand, participate in, and follow all rider requirements. Appropriate observed conduct may include but not be limited to, maintaining the proper riding position, attention to and compliance with safety instructions, proper use of restraints and safety equipment and a willingness to participate in the attraction.

In addition to the basic physical and mental requirements defined above, each ride is evaluated relative to temporary conditions which may prevent a guest from safely riding a specific ride. Some of the specific conditions evaluated include:

- Cervical collar or neck brace
- Broken collar bone
- Full arm cast
- Braced arm cast
- Lower arm cast
- Full leg cast
- Lower leg cast

PART 4: INDIVIDUAL RIDE ACCESS INFORMATION

listed in alphabetical order.

The following descriptions are intended to provide information on the type of actions caused by various rides along with their unique restrictions. If you enrolled in the Ride Accessibility Program, follow the directions listed under each ride below.

ALPENGEIST®

One of the world's tallest, most twisted inverted roller coasters.

Ride Access: Mobility-impaired guests that would like to ride this attraction should see the ambassador at the main entrance. This ride utilizes a virtual queue system, and you will be given return time to ride. At the provided time, the guest will proceed to the exit, to board the ride. Please see the ambassador for assistance and loading instructions.

Height Requirements: Guests must be at least 54" tall to ride.

Ride Restrictions: For your safety, you should ride only if you are in good health. Guests who know or suspect that may be pregnant, have high blood pressure, heart conditions, neck or back problems, recent surgery, or medical condition that may be affected by the features of this ride or prevent the normal seating or use of the safety restraints as provided, shall not ride.

Physical Restrictions: Each rider must be able to remain sitting up straight, keeping their head upright, their back and shoulders against the seat back, and their hands, arms, legs and feet down and inside the ride at all times. Please review all restrictions listed on the sign at the attraction entrance.

Guest must have the ability to hold on with at least one functioning hand, grasp with one functioning arm, and to brace self with two functioning legs amputated at the knee or below or the ability to hold on with two functioning hands and to brace self with one functioning leg amputated at the knee or below.

Guests with an amputated leg above the knee may ride, with the use of a separate three-point harness, provided the guest has at least one functioning hand, one functioning leg (to the knee or below), and enough leg remnant to be secured by the separate three-point harness. Guests should refer to the Welcome Center to determine their specific ability to ride.

Leg prostheses are not permitted on the ride. Guests with any type of arm or hand prosthesis should ensure that it is properly secured and will remain in place in spite of forces experienced during the ride. Guests with a broken collar bone, neck brace, or any type of hard cast or walking boot shall not ride. Please see an ambassador at the ride if you have any questions.

Service Animals: Not Permitted.

APOLLO'S CHARIOT®

High-speed hyper-coaster achieving great heights and high rates of speed.

Ride Access: Guests using wheelchairs should see the ambassador at the main entrance of the ride. This ride utilizes a virtual queue system, and you will be given return time to ride. At the provided time, the guest will proceed to the exit, to board the ride. Please see the ambassador for assistance and loading instructions.

Height Restrictions: Guests must be at least 52" tall to ride.

Ride Restrictions: For your safety, you should ride only if you are in good health. Guests who know or suspect they may be pregnant, have high blood pressure, heart conditions, neck or back problems, recent surgery, sensitivity to strobe effects, or any other impairment or medical condition that may be affected by the features of this ride or prevent normal seating or use of the safety restraints as provided, shall not ride.

Physical Restrictions Each rider must be able to remain sitting up straight, keeping their head upright, their back and shoulders against the seat back, and their hands, arms, legs, and feet down and inside the ride at all times. Please review all restrictions listed on the sign at the attraction entrance.

A guest must have two natural legs (to the ankle) and must be able to hold on to the lap bar with one functioning hand in order to ride. Guests should refer to the Welcome Center to determine their specific ability to ride.

Leg prostheses are not permitted on the ride. Guests with any type of arm or hand prosthesis should ensure that it is properly secured and will remain in place in spite of forces experienced during the ride. Guests with an arm prosthesis must have one fully functioning hand and two natural functioning legs to ride. One natural functioning hand with original fingers (not prosthesis) is necessary to hand-grasp the lap bar.

Guests with a broken collar bone, neck brace, or any type of hard cast or walking boot shall not ride. Please see an ambassador at the ride if you have questions.

Service Animals: Not permitted.

THE BATTERING RAM

Boat swing ride.

Ride Access: Guests using standard wheelchairs or ECV's should proceed to the exit gate to the left of the ride entrance. Guests will need to transfer from the

wheelchair to the ride unit. Please see an ambassador at the load platform with any questions.

Height Requirement: Guests must be least 42" tall to ride or be accompanied by a supervising companion. Hand-held infants are not permitted.

Ride Restrictions: For your safety, you should ride only if you are in good health. Guests who know or suspect that may be pregnant, have high blood pressure, heart conditions, neck or back problems, recent surgery, sensitivity to strobe effects, prone to motion sickness, have a heightened sensitivity to dark enclosed places or any other impairment or medical condition that may be affected by the features of this ride or prevent the normal seating or use of the safety restraints as provided, shall not ride.

Physical Restrictions: Each rider must be able to remain sitting up straight, keeping their head upright, their back and shoulders against the seat back, and their hands, arms, legs, and feet down and inside the ride at all times. Guests must be able to hold on with one functioning hand and brace with one functioning leg. Guests with a broken collar bone, neck brace, or braced arm cast must not ride. All other casts must comfortably fit inside the ride unit. Please review all restrictions listed on the sign at the attraction entrance.

Service Animals: Not Permitted.

BUSCH GARDENS RAILROAD

Enjoy a breathtaking 20-minute tour around the park onboard our steam-powered locomotives with stops in Scotland, Festa Italia and New France.

Ride Access: All trains are equipped with chair lifts to assist guests using wheelchairs. Please see an ambassador at the station for further instructions.

CARIBOU STATION (NEW FRANCE)

Mobility-impaired guests that would like to ride this attraction should use the access ramp to the right of the entrance near Le Catapult. Please see the Conductor ambassador for assistance and loading instructions.

FESTA STATION (FESTA ITALIA)

Mobility-impaired guests that would like to ride this attraction should use the entrance queue and enter the platform loading area. Please see the Conductor ambassador for assistance and loading instructions.

TWEEDSIDE STATION (SCOTLAND)

Mobility-impaired guests that would like to ride this attraction should use the entrance gate next to the Tweedside Gift Shop. Please see the Conductor ambassador for assistance and loading instructions.

Service Animals: Permitted (provided the guest and animal fit comfortably and safely on the ride).

DARKOASTER™

Indoor high-speed multi launch straddle coaster.

Ride Access: Mobility-impaired guests that would like to ride this attraction should see the ambassador at the attraction main entrance. This ride utilizes a virtual queue system on busier days, and you may be given a return time to ride. At the provided time, the guest should proceed to the Quick Queue® entrance to board the ride. Please see the ambassador for assistance and loading instructions.

Height Restrictions: Guests must be at least 48" tall and no taller than 77" (6'5") to ride.

Ride Restrictions: For your safety, you should ride only if you are in good health. Guests who know or suspect they may be pregnant, have high blood pressure, heart conditions, neck or back problems, recent surgery, sensitivity to strobe effects, or any other impairment or medical condition that may be affected by the features of this ride or prevent normal seating or use of the safety restraints as provided, shall not ride.

Physical Restrictions: Each rider must be able to remain sitting up straight, keeping their head upright, their back and shoulders against the seat back, and their hands, arms, legs, and feet down and inside the ride at all times. Please review all restrictions listed on the sign at the attraction entrance.

Guests must be able to grip with one fully functional natural arm and hand. Must also be able to brace with (2) functioning legs, guest must have natural leg to the ankle and guest must wear foot prosthetic to ride. Leg Casts are not permitted.

Prosthetic feet and arms are permitted. Prosthetic must be secured.

Guests wearing full arm casts, forearm casts that prevent the ability to grip, leg casts, or neck braces must not ride.

Service Animals: Not permitted.

Der AUTOBAHN

Bumper Cars

Ride Access: Mobility-impaired guests should proceed to the right of the exit, once there press the button to alert the ambassador. The ambassador will assist you with loading.

Height Restrictions: Guests must be at least 48" tall to ride alone. Guests between 42"- 48" must be accompanied by a supervising companion.

Ride Restrictions: For your safety, you should ride only if you are in good health. Guests who know or suspect that may be pregnant, have high blood pressure, heart conditions, neck or back problems, recent surgery, sensitivity to strobe effects, prone to motion sickness, have a heightened sensitivity to dark enclosed places or any other impairment or medical condition that may be affected by the features of this ride or prevent the normal seating or use of the safety restraints as provided, shall not ride.

Physical Restrictions: Each rider must be able to remain sitting up straight, keeping their head upright, their back and shoulders against the seat back, and their hands, arms, legs, and feet down and inside the ride at all times. Guests must be able to hold on with one functioning hand and brace with functioning leg. Guests with a neck brace, or a braced arm cast must not ride. Please review all restrictions listed on the sign at the attraction entrance.

Service Animals: Permitted (Provided the guest and the animal fit comfortably inside the ride unit).

Der AUTOBAHN JR.

Childrens bumper cars.

Ride Access: Mobility-impaired guests that would like to ride this attraction should proceed to the exit gate to the right of the entrance. Guests using wheelchairs must transfer from their wheelchair to the ride vehicle.

Height Restrictions: Guests must be under 48" inches tall to ride. Hand-held infants are not permitted.

Ride Restrictions: For your safety, you should ride only if you are in good health. Guests who know or suspect that may be pregnant, have high blood pressure, heart conditions, neck or back problems, recent surgery, sensitivity to strobe effects, prone to motion sickness, have a heightened sensitivity to dark enclosed places or any other impairment or medical condition that may be affected by the features of this ride or prevent the normal seating or use of the safety restraints as provided, shall not ride.

Physical Restrictions: Each rider must be able to remain sitting up straight, keeping their head upright, their back and shoulders against the seat back, and their hands, arms, legs, and feet down and inside the ride at all times. Guests must have the ability to hold on with one functioning hand and brace with one functioning leg. Guests with a broken collar bone, neck brace, or braced arm cast must not ride. All other casts must comfortably fit inside the ride unit. Please review all restrictions listed on the sign at the attraction entrance.

Service Animals: Not permitted.

Der WIRBELWIND

Swing ride.

Ride Access: Mobility-impaired guests that would like to ride this attraction should proceed to the exit gate to the left of the entrance.

Height Restrictions: Guests must be at least 48” tall to ride. Riders between 40” and 48” must be accompanied by a supervising companion and must ride in the double swings.

Ride Restrictions: For your safety, you should ride only if you are in good health. Guests who know or suspect that may be pregnant, have high blood pressure, heart conditions, neck or back problems, recent surgery, sensitivity to strobe effects, prone to motion sickness, have a heightened sensitivity to dark enclosed places or any other impairment or medical condition that may be affected by the features of this ride or prevent the normal seating or use of the safety restraints as provided, shall not ride.

Physical Restrictions: Each rider must be able to remain sitting up straight, keeping their head upright, their back and shoulders against the seat back, and their hands, arms, legs, and feet down and inside the ride at all times. Guests must be able to hold on with one functioning hand and brace with one functioning leg, with the ability to straddle the ride unit and maintain the proper riding position. Guests with any type of prosthesis should ensure that it is properly secured and will remain in place in spite of forces experienced during the ride. Guests with a neck brace, broken collar bone, braced arm cast, or full leg cast must not ride. Please review all restrictions listed on the sign at the attraction entrance.

Service Animals: Not permitted.

ELEPHANT RUN

Rock your little one’s day with this fun sized-down bobsled ride.

Ride Access: Mobility-impaired guests that would like to ride this attraction should proceed to the exit gate located to the right of the entrance.

Height Restrictions: Guests must be at least 38” tall to ride. Adults may ride with a child who meets the height requirements.

Ride Restrictions: For your safety, you should ride only if you are in good health. Guests who know or suspect that may be pregnant, have high blood pressure, heart conditions, neck or back problems, recent surgery, sensitivity to

strobe effects, prone to motion sickness, have a heightened sensitivity to dark enclosed places or any other impairment or medical condition that may be affected by the features of this ride or prevent the normal seating or use of the safety restraints as provided, shall not ride.

Physical Restrictions: Each rider must be able to remain sitting up straight, keeping their head upright, their back and shoulders against the seat back, and their hands, arms, legs, and feet down and inside the ride at all times. Guests must be able to hold on with one functioning hand and brace with one functioning leg or be accompanied by a supervising companion.

Guests with a broken collar bone, neck brace, or braced arm cast must not ride. All other casts must comfortably fit inside the ride unit. Please review all restrictions listed on the sign at the attraction entrance.

Service Animals: Not permitted.

ESCAPE FROM POMPEII®

Tour of ancient ruins flume experience.
